# Glamour Glads ... by Cameron

IMPORTANT NOTE: In this price list we list choice Gladiolus selections from one of America's most extensive stocks picked especially for florists and retail tradesmen. No flowers are cut commercially from our blocs reserved for florists' forcing, thus assuring greenhousemen of high-crowned bulbs full of forcing vigor and vitality. All bulbs are harvested at their optimum period, then cleaned and stored in the most modern of air-conditioned and heat-controlled warehouses in the West. This insures perfect curing. All fields are carefully and rigidly field inspected and checked a number of times during the year, and especially during topping and harvesting. All bulbs are carefully fumigated according to state regulations and are shipped out under state certificate. No effort is spared to insure our customers the best in Glads. For variety, for quality, for quantity - look to Cameron in the far West for Glads, as do so many greenhousemen and retailers throughout the length and breadth of the United States. Our Seal of Quality on each shipment is your assurance of our untiring efforts to give you the best.

Most varieties ready for "Early Bird" delivery in December
from the heart of America's Quality Glad-Growing section. Car-
loads of bulbs yearly to America's forcers. All bulbs Northwest
grown under our careful supervision and inspection. Please indi-
cate in your order whether bulbs are to be used for forcing pur-
poses in greenhouses.

Prices are per 1,000 - 250 quantity takes the thousand rate. To compute hundred rate add \$10.00 to thousand price and divide by ten. Quotations on 5's, 6's and bulblet stock supplied on

Quantity discounts: Less 5% will quote large quantity prices on	on lots request	of 10,00	0 or ove	er. We
